

Contents:

Plant-arbuscular mycorrhizal fungal interaction: Insight into sustainable agroecosystems	B.F. Rodrigues	1-4
Antifungal efficacy of mycosynthesized silver-selenide nanoparticles against <i>Aspergillus niger</i> and their antioxidant activity evaluation	Sk Najrul Islam, Sadia Parveen, Syed Mohd Adnan Naqvi, Azam Raza and Absar Ahmad	5-10
Characterization of chemical constituents of <i>Coprinopsis cinerea</i> (KX468975), a coprophilous mushroom	S. Mohankumar and J. Savitha	11-16
First record of <i>Boletus himalayensis</i> (Basidiomycota, Boletaceae) from Kalatop Wildlife Sanctuary, Himachal Pradesh, India	Dyutiparna Chakraborty	17-21
Dematiaceous fungi as etiological agents of superficial mycosis in North India	Bharti Sharma and Skarma Nonzom	22-28
Bioprospecting of fungi from ecological niches of Assam for industrial biomolecules	Pradeep Verma, Bikash Kumar, Nisha Bhardwaj and Ansar Alam	29-36
Fungal L-asparaginases- A mini review	Anil Kumar Meghavarnam, Ruchi Sahu and Savitha Janakiraman	37-52
Synthesis and characterization of ZnO nanoparticles using <i>Pleurotus florida</i> extract	Kumar Manimaran and Subban Murugesan	53-56
Biosynthesis of fluorescent cadmium sulfide nanoparticles using neem endophytic fungus and evaluation of their anti-proliferative and anti-microbial activities	Ejaz Ahmad Siddiqui, Rashmi Sharma, Asad Syed, Shadab Khan, Ravindra Taware, Sk Najrul Islam, Mahesh Kharat, Kalpana Pai, Narendra Kadoo, Vidya Gupta and Absar Ahmad	57-65
Medicinal mushrooms of Kerala - a brief overview	K.B.Vrinda	66-72
Metagenomic analysis of active ectomycorrhizal zone of <i>Astraeus</i> using cloud computing approach from two seasons	Vineet Vishal, Geetanjali Singh and Shalini Lal	73-81
